

EVC Operating Guide

- 1 Have your FOB or App ready.
Download the CityEV EVopencard App at:

- 2 Ensure the charge point has a green check LED
- 3 Connect your EV (Type 2 Connector)
- 4 Place your FOB at the NFC sign on the side of the chargepoint, or enter the chargepoint ID into the App
- 5 If authorised the approved status LED will turn green
- 6 Charging will start automatically indicated by Orange charge status LED.
- 7 When your EV is fully charged the charge status LED will turn green.
- 8 To stop charging:
 - release the connector at EV
 - place FOB at side NFC zone
 - use the app to stop charging
- 9 Remove the connector from the chargepoint.
